Workers' Committee: Chairman: Habrsberk (fnu) (see ROH above).  
Deputy chairman: Syrovatka (fnu) (see KSC & ROH).

Number of employees as 31 May 1949: Workers and apprentices 3,187  
Clerks, office workers 549  
Total 3,736  
(This total includes 530 youths under 20 and 888 women).

b. "Moto" Department (motorcycles, accessories):

1) Personnel

Dept. manager: Ing. Felix Kumpf.  
Production manager: J. Privratsky.  
Deputy production manager: Fousek (fnu).  
Number of employees: approx. 1,200

2) Production

Motorcycles: Target for 1949: 30,000 x 125 T motorcycles - 4th series  
Produced up to 31 May: 13,275  
Produced during May : 2,561 i.e. 110 percent of the monthly target.  
Production target for June: 2,850.  
The June target will most likely be fulfilled only to 80 percent because of a shortage of labor, especially in the chromium-and nickel-plating (galvanization) shops. 20 percent of the total production is being exported, mainly to the U.S.A.

Electric horns: Production of 6V and 12V horns for the Jawa, Tabra and Skoda Works.  
Target for 1949: 60,000  
Rate of fulfillment as of 31 May: 95 percent  
Own consumption (CZ): 30,000 Distribution of  
For the Tatra Works: 6V: 5,600 finished products  
12V: 4,000 is to the automobile  
For the Jawa and Skoda Wks: 20,400 industry in 1949.

Dynamos: 15V: Target for 1949: 4,000, which total is to be allotted as follows:  
For spare parts: 1,000  
For new motors : 2,000  
For other factories: 1,000

Motorcycle motors: Target for 1949: 2,000.

Spare parts for 125T type motorcycles:  
Target for 1949 fulfilled to 100 percent. Target for 1949 148 tons.  
In addition, spare parts for 50 x 125T motorcycles were ordered by the Army.

Rikshas: Rikshas are not included in planned production. Ten of these vehicles were ordered by the following countries:  
Dutch Indies: 3  
Bombay: 1  
India and elsewhere: 6

General: For the time being, sufficient raw material is available to keep the production going. There is, however, a shortage of skilled labor which is due to low wages, absence of workers on political schooling courses, and purges of unreliable employees.

c. Chain Department (Retizkarna)1) Personnel

Dept. manager: Fr. Vlasak.

Deputy managers: Kyspersky (fnu), Zetek (fnu). Zetek is a Communist Party man instructed to supervise Vlasak and Kyspersky.

Number of employees: Approximately 600, most of them unskilled workers, as production is automatic throughout. The majority of them are fanatical Communists who belong to the lowest social strata.

This is one of the best and most modern equipped departments of the plant.

2) Production

"Velo" bicycle transmission chains;

Target for 1949: 2,880,000, i.e. 10,000 daily.

The target is being fulfilled to 100 percent. Export of the greater part of the production, mainly to the U.S.A.

"Moto" motorcycle transmission chains;

Target for 1949: 288,000, or 1,000 daily.

Fulfilled to 100 percent.

3) General

There is a shortage of good quality raw material, which is expected to run out at the end of June. Supplies are expected from Belgium and Austria, to be imported by the Import Agencies "Ferra" or "Sdruzel".

d. Zetka Department (small arms and accessories, motorcycle and bicycle parts):1) Personnel

Dept. manager: Müller (fnu).

Deputy manager: Mestan (fnu).

Number of employees: Approx. 300.

2) Production

Pistols 6.35 mm:

Target for 1949: 20,000

Produced up to 31 May: 9,046

Target fulfilled to 100 percent.

Pistols 9 mm:

Target for 1949: 10,000

Production has not started yet, as the necessary tools and dies are not yet available.

Pistols 7.65mm, Mark 48:

Target for 1949: 35,000

Production not started, tools and dies being produced.

Cleaning rod Mark 47 for Army air-guns:

Target for 1949: 6,000

Target for 1949: 160,000 .  
Target fulfilled to 100 percent.  
80 percent of the production is being exported to Holland (DUIS).

Pedals, bicycle: Target for 1949: 250,000 pairs.  
The target is being fulfilled to 100 percent.  
Production is absorbed by Czechoslovak bicycle plants.

Spare parts for all old types of motorcycles, type "CZ":

3) General

The whole department is handicapped by an acute shortage of material, especially for the production of small arms.

e. Machine-tool Department1) Personnel

Dept. manager: Ing. Krasny (fnu).  
Deputy manager: Bedrna (fnu).  
Chief engineer (constructor): Fischer (fm).

2) Production

Total target for 1949: 380 machines.  
Out of these: Rolling and shaping machines : 15  
Also miscellaneous machines for own use.  
Monthly production: 30 machines, mostly grinding machines for various Czechoslovak plants.  
The largest machines so far manufactured are two grinding machines, type BK 5/1500, which were delivered to the USSR.

3) General

The main bottleneck is caused by delayed deliveries of castings and electric motors.

f. Tool Shop (manufacture of tools, dies, and instruments for own use)

Dept. manager: Marek (fnu).  
Deputies: Hovorka (fnu), Königsbauer (fnu), Richter (fnu).  
Number of employees: 500.

g. Research Department

Dept. manager: Ing. Brezina.  
Deputy manager: Weinzettel (fnu).

The research dept. is very well equipped and serves for testing of equipment, tools, and materials.

3. Uhersky Brod plant

a. Plant manager: Brejcha.
